

How to Find a Medicare Drug Plan

Steps to Enroll in a Part D Plan

Gather Information

- Write down a list of all your current medications, with the dosage, quantity and frequency for each one. This will help you compare what is on your Medicare account.

Use the Medicare Plan Finder Tool

- Go to **Medicare.gov** and **Log in** to your MyMedicare account.
- Click on "**Find Health & Drug Plans**" to see your current plan and explore your options for 2026.

Review Medications

- Ensure that your current drug list is up-to-date with any new prescriptions.
- You may also change or add a preferred pharmacy for accurate cost estimates.

Find a Plan

- Click "**Find plans now**" to view a listing of available plans for 2026.
- The plans listed will be in sorted by the lowest drug and premium cost.

Compare Plans

- Compare plans you like by checking the "**Add to Compare**", then at the bottom right of the screen, click on "**Compare**" to review your selected plans.
- Review the **Overview** and **Drug coverage & costs** section before selecting your plan.

Final Review

- Once you have selected a plan, click **Enroll**.
- Follow the prompts to enroll in your selected plan to finish enrolling.
